

“CONVERSION CREATES JOBS”

SAT., OCT. 2, 2004 BATH, MAINE

VIGIL, POTLUCK & COMMUNITY GATHERING

The Bush Administration plans to deploy missile defense interceptors before the next election as the next step toward controlling and dominating space. One key element in the Bush plan is the deployment of Theater Missile Defense (TMD) surrounding China. Aegis destroyers outfitted with missile defense interceptors, made at Bath Iron Works, are central to this forward deployed provocative strategy. During the week of Sept. 25-Oct 2 local protests will be held worldwide to protest these destabilizing moves. We call for the creation of a healthy Maine economy by converting BIW to civilian production that in the end will create many times more jobs. Please join with us!

- 11:30-12:30** **Peace Vigil outside Bath Iron Works**
1:00-2:00 **Community Potluck Lunch, UCC Bath**
2:00-3:00 **“Healthy Maine Economy” presentation/discussion**

Sponsored by: Peace Action Maine, Veterans for Peace-Chap. 001
